APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing appli-  
cation, and do hereby grant the same, subject to the following lim-  
itations and conditions: This permit is issued subject to all existing  
rights on the source. It is understood that the amount of water herein  
granted is only a temporary allowance and that the final water right  
obtained under this permit will be dependent upon the amount of water  
actually placed to beneficial use. It is also understood that this right  
must allow for a reasonable lowering of the static water level at permittee's  
well due to any other ground water development in the area. A substantial  
weir or other type of measuring device must be installed and measurements  
of water use kept. The well shall be equipped with a 2-inch opening for measuring  
depth to water. If well is flowing, a valve must be installed and maintained to  
prevent waste. The State retains the right to regulate the use of the water herein  
The amount of water to be appropriated shall be limited to the granted at  
amount which can be applied to beneficial use, and not to exceed any and all  
times.

6.0 cubic feet per second., but not to exceed a seasonal duty of  
4.0 acre-feet per acre of land irrigated from any and/or all sources.
